### Projects

**Portfolio Website** [trippdurham.com](http://trippdurham.com)

- Constructed a personal, portfolio website that utilizes HTML and CSS and JavaScript to create an appealing personal portfolio.
- Developed in Visual Studio and published to Azure Web Services

#### Weather Application

- Developed a custom chrome extension that accesses an external weather API to display a local weather forecast.
- This tool was created using HTML, CSS, and JavaScript.

### Experience

**Machine Operator** **Jun 2022-Nov 2022**  
*Nebraska Furniture Mart* *The Colony, TX*

- Leveraged asset management software to identify, locate, and/or manage orders across a 1.3 million square foot warehouse.
- Operated a variety of equipment safely and efficiently to locate, move, or organize inventory.
- Strategically communicated across my department and with other departments to maintain open information sharing and ensure expectations were met.

**Ranch Assistant Manager (college internship)** **May 2018-May 2022**  
*Pony Creek Ranch* *Stephenville, TX*

- Assisted Ranch Manager with budgeting, technical support needs, and online purchasing of supplies.
- Performed many physical duties including equipment operation and maintenance, shop cleanup, fence repair, and caring for livestock.
- Acreage clearing and land clean-up.
